On a freezing day in December 1963, 13-year-old Alison Carter vanishes from the isolated Derbyshire hamlet of Scardale. For George Bennett, it is the beginning of his most difficult case: a murder with no body and an investigation with more dead ends and hostile individuals than he'd have found in the city. Decades later he tells his story to journalist Catherine Heathcote, but just when her book is about to be published, Bennett tries to pull the plug. Catherine is forced to reinvestigate the past, with results that she never expected to find.

***Books will be available at the Circulation Desk on June 16***
